### ADVANCE IS CONTINUED BY ALLIES

The Battle Line is Being Extended South of the Aisne and Marne Toward Chateau-Thierry -- German Prisoners Taken Now Total 18,800

(By Associated Press)  
With the American Army on the Aisne-Marne front, July 20.—The Americans and French troops are continuing their advance along the 25-mile front in all sectors. More prisoners and guns are being brought in.  
The battle zone along the front of the allied counter-attack between the Aisne and Marne rivers is being extended further south toward Chateau-Thierry, according to information received early this morning.  
The attempts of the Crown Prince's generals to rally their forces to meet the steady movement of the allies, has resulted in such strengthening of the opposition as to indicate that the battle is approaching a point when the armies will be locked in a gigantic struggle.  
Both on the northern end of the line and south the reinforced Germans are making a desperate effort to hold their position. The Franco-American forces are continuing the steady pounding of the northern part of the line near Soissons, although the movement is lacking the dash and advance which characterized the first days of the advance attack.

London, July 20.—French troops on

the Soissons front have extended their advance from Mont de Paris southwest of the city to Belleau, a town southwest of Soissons.  
On the Rhims front the French have advanced for a distance of 1000 yards between Souain and Auberive. The French also made slight progress near Pourcy. The number of German prisoners taken in the Franco-American offensive now has reached 18,800.

With the French Army in France, July 20.—Entente allied troops today are driving back the Germans on the south bank of the Marne and are approaching the river embankment.

### WILL CLOSE BALL SEASON TOMORROW

(By Associated Press.)  
Cleveland, July 20.—President Dunn of the Cleveland American League Club today sent the following message to Cleveland from Chicago:  
"We will play a double-header with Philadelphia tomorrow and will then close the ball park for the balance of the season. It is our desire to comply promptly with Secretary Baker's ruling on baseball."

### BALL CLUBS ASKED TO END SEASON

(By Associated Press.)  
Chicago, July 20.—A message to all baseball club owners in the American League asking them if they were willing to abide by Secretary Baker's order at once, was sent to them today by President Dan Johnson.  
The action of the Cleveland club in closing its season Sunday is the first result of the ruling.

(By Associated Press)  
Washington, July 20, Latest 3 p. m.—Captain Harley H. Christy of the San Diego, reported his belief that it was a torpedo that sent the vessel down off Fire Island yesterday, further reports today showed that five or six mines were destroyed by warships in that vicinity last night, strengthening the opinion of naval officers here that an enemy submarine was not responsible for the disaster.

A statement by Rear Admiral Palmer, acting secretary of the navy, describing the gallant conduct of Captain Christy and his men emphasized the absence of any evidence of the appearance of the enemy raiders.

There was little, if any, loss of life indicated by the fact that the ship was abandoned in good order, all hands remaining at their posts until ordered to take to the boats.

Rear Admiral Palmer's statement commends the exemplary conduct of the officers and men of the San Diego, stating particularly the courageous behavior of Captain Christy who was the last to leave the ship, and as the cruiser was turning over, the Captain made his way over the side and jumped overboard. He and the executive officer were cheered by the men in the boats and as the vessel went down they sang "The Star Spangled Banner."

Washington, July 20.—Captain H. H. Christy of the U. S. S. San Diego has officially reported to the Navy Department that he believes that his ship was torpedoed.

At 12 o'clock noon today the Navy Department was without any official information as to whether there was any loss of life or not.

Captain Christy states that when the ship was hit that every man went to his station and the work of launching life-saving gear was like an every day drill.

Washington, July 20.—The Chief of Staff of the cruiser force announced this noon that in his opinion the U. S. S. San Diego was torpedoed.

Point of Woods, N. Y., 2.30 A. M., July 20.—Survivors of the cruiser San Diego sunk ten miles off Fire Island light shortly before noon, Friday, declared that members of the engine room crew must have been killed by the explosion which sank the cruiser. They were uncertain whether the cruiser was sunk by submarine or a mine. The cruiser remained afloat for thirty-six minutes after the explosion, which was just aft of mid-ship and blew up her boilers.

They state that the guns of the cruiser were fired at what was thought to be a periscope just before the explosion took place.

Thirty-five men, including six officers were landed here. They report that the Captain and first officer were the last two to leave the ship.

Heavy explosions heard late today indicated that some of the patrol boats which put out as soon as the sinking was reported had come upon a German submarine. The explosions continued until eight o'clock tonight and mariners here claim that they sounded like depth bombs.

Several barrels of crude oil, some of them charred were washed ashore here this afternoon and it is thought that possible a tanker may have been a victim of the submarine before the cruiser.

Washington, July 20, 5 A. M.—The Navy Department early this morning received information that two steamships which are proceeding to an unnamed Atlantic port, have on board 1950 officers and men of the Cruiser San Diego, in addition to the one officer and thirty men landed in a life boat previously reported.

The men are said to be in good condition and no one is reported missing or injured.

Washington, July 19.—The United States Armored Cruiser, San Diego, was sunk ten miles south east of Fire Island Light, Long Island at 11.30 this forenoon.

The Navy announcement said that one officer and two boat loads of the crew were landed at Life Station No. 32, Long Island and others were picked up by boats and that four Steamers were standing by.

So far as it can be ascertained the cause of the sinking is not yet determined. The Cruiser which was formerly the old California was of 13,630 displacement and carried a crew of officers and men of 1080 and was in command of Rear Admiral H. H. Christy.

The vessel herself was not regarded as a serious military loss unless she has been sunk by a German submarine, if the ship went down from a collision or striking a defense floating mine, with the small loss of life that has occurred if any, there is no great military loss. Until the statement

**HOW TO SAVE FISH**

This is a particularly good time of the year to try whiting; if you want to keep your food bill down, whiting are wholesaling at the Boston Fish Pier at a figure which should enable the retailer to sell them at ten cents a pound and make a profit. Other fish are high on the whole, and the seeker for low-priced fish must fall back on this variety. There is plenty of whiting on the market and every retailer can procure a supply.

Whiting is also known as "silver hake" and has long been a favorite dish with those acquainted with its pure, white, tender flesh. It is extremely perishable, and for this reason, if the housewife does not live near the coast, she should buy frozen whiting, as the frozen fish will be in a better condition than the fresh article.

The fish should be thawed slowly in cold water. It may be cooked in the same manner as the most expensive haddock or cod, for which it will be found a fine, low-priced substitute.

## SUSPICIOUS CRAFT HELD FOR INQUIRY

Eastport, Me., July 20.—Local officials have been notified to hold the yawl-rigged yacht C. F. Wahl until the arrival of Federal officials here Saturday to make further investigation. The Wahl was towed in here by a small patrol cruiser Sunday from a small cove two miles down the coast, after being reported as a suspicious craft.

She is a 40-foot auxiliary yacht, having been built in Philadelphia, fitted out as a fisherman. On board are Capt. H. C. Pigott and his wife, who say they live in Dorchester, N. J., and have been spending the summer on a pleasure and fishing cruise. They have a local pilot, John Alley of Mt. Desert on board.

The commander of the patrol cruiser reported that she was an innocent craft, after investigating. Capt. Pigott says he is planning to fish in the bay for a time.

## FOUR GIRLS SENTENCED FOR FLIRTING

Providence, July 20.—Declaring that this city should be made safer for the morals of soldiers and sailors, Judge Gorham in the District Court Friday sentenced three girls to nine months each and another to six months in the State Workhouse. The girls admitted that they had flirted with men.

Miss Lillian Connell of Walnut street is spending her vacation at Bedding.

Rev. Cyrus L. Corliss, pastor of the First Methodist church returned from his three weeks' vacation today and Sunday will occupy his pulpit, the church having been closed during his absence.

**AIR RAID? NO! MERE PATRIOTIC OUTBURST**

Never in the history of the great exchange has anything occurred equal to the service demand of last evening. "You girls as well have attempted to ball the Piscataqua River with only a tin ball as to have been able to handle the tremendous business, every position on our switch board was filled. The way victory celebration with the blowing of whistles and the ringing of bells caused a veritable panic. Many women thought that an air raid was in progress." Calls came from every part of Rockingham County to ascertain whether or not an air raid was in progress, whether the Kaiser had been captured or whether the Crown Prince had been killed and his entire army had been taken. As soon as manager Drew discovered early in the afternoon the telephone blockade he called all hands, both night and day force to duty. The pressure of business between here and Boston has increased to such an extent that it takes practically an hour to get a toll call through. It was some time, some crowd, all thoroughly American, full of patriotism and prepared to celebrate the first great American victory. "Over There."

## ALLIES TAKE 17 THOUSAND PRISONERS

(By Associated Press.)  
Notwithstanding that the Germans have thrown great reinforcements into the line between Soissons, Chateau-Thierry and Rheims, they have no where been able to stem the onrush of the allies.

The American and French forces have continued their advance further east between Soissons, Chateau-Thierry and Rheims and have succeeded in pushing the heavy artillery fire and the reinforcements thrown into the line by the Germans. The gains made in two days at its deepest point is seven miles, elsewhere on the twenty-five mile front the distance runs down to two miles.

In addition to inflicting extremely heavy casualties upon the Germans, the French and Americans have captured 17,000 prisoners including two colonels with their chief of staff and 350 guns and thousands of machine guns.

The offensive of the entire western front has passed from the Germans into the hands of the Entente allies. East and west of Rheims where the Germans started the battle on the 15 mile front running from Chateau-Thierry to eastern Champagne the enemy is now on the defense. The li-

ans have made gains south of the Marne and east of Rheims the Germans have not offered to resume the offensive.

The gains on Friday in the center of the 25 mile front northwest of Chateau-Thierry where the Americans are holding forth the fighting was particularly violent. At Chodun where the Germans sent in large forces of reserves in an effort to stem the advance of the allies. Here the American artillery did notable work and inflicted great casualties upon the en-

## ALLIES BEGIN ADVANCE IN RUSSIA

Amsterdam, July 19.—Rear Admiral Kemp of the British Navy has proclaimed the occupation of the northern section of the Murman railroad by British, American, French and Serbian forces, says Max Herrmann, the Stockholm correspondent of the Berlin Vossische Zeitung under the date of July 16. The admiral, he adds, also announced that the forces would advance southward in accord.

Herrmann says that there are no Soviet authorities in the whole Murman territory. On the entire 400-mile stretch of railroad only at half a dozen main points are there any sort of rudimentary political organizations. The largest of these is at Alexandrovsk, comprising 400 persons; while the one at Kem has 300 members. These communities, he declares, were until some months ago Bolshevik, but since they have split into numerous parties whose service go to the highest bidder.

He further alleges regarding "a request for help from the population" that two obscure Russians, one an ex-convict and the other a former gendarme, have been traveling around in the interests of the Allies collecting adhesions to the requests by threats or bribery. The newspaper prints an Archangel message to the favorite of Moscow which mentions the arrival there of Italian and Serbian officers and men, who, it declares, were disarmed and expelled by the local Soviet.

A zoologist named Schmidt, who has just returned to Petrograd from a trip to North Russia, reports, according to the Norddeutsche Allgemeine Zeitung that the British are busy making Kem a strongly fortified place and that the garrison is well supplied with food from England.

NEXT BLOW BETWEEN  
MONTDIDIER AND SEA

London Expects This As Result Of Rheims Failure—Half Of German Reserves, Used Up

London, July 19.—The effect of the Rheims failure will probably be to accelerate a blow by the Germans somewhere on the front between Montdidier and the sea. Although the Allied line has many vulnerable points on this long front and constituted room for maneuvering is always a danger, yet it remains a fact that the Allies now have used up half the fresh divisions in the German reserve and the blow to come must be proportionately less severe.

### MEDAL FOR PATAPSCO MAN.

A silver life saving medal has, through the Navy Department, been delivered to Steve A. Studley, fireman, first class, on board the U. S. S. Northern Pacific, in recognition of his gallant conduct in assisting in rescuing a man from drowning May 5, 1917. Studley jumped overboard from the U. S. S. Patapsco, built at Portsmouth navy yard, to rescue a shipmate who had been accidentally knocked overboard. Studley re-enlisted at Seattle, Washington, September 5, 1917; next of kin, Edna Scherwin, Riverville, Washington.

## N. Y. CELEBRATES VICTORY BY BELL RINGING

New York, July 19.—The bell on the city hall tower was ordered rung by Mayor Hylan for 15 minutes on Thursday afternoon in celebration of the victorious American advance on the French front.

Down on the water front steamship capitalists caught the infection and set their whistles blowing.

First slowly then at 4 o'clock in quarter-minute strokes, the bell rang out. Other bells in downtown districts caught the spirit.

On the wings of light the glad tidings spread up town. In the vicinity of 42d street and Broadway car gongs began to thump, and from excited knots of people about the bulletin boards a roar of deep-throated cheers sounded.

New York was experiencing a sensation unknown since the days of the Spanish War. New York was celebrating a victory.

## TO SHIP SUPPLIES TO EUROPE

(By Associated Press.)  
Washington, July 19.—A large cargo of relief supplies is to be dispatched to Russia by the American Red Cross on special steamers. They will be accompanied by Red Cross workers who will work under the direction of the Red Cross Commission now in Russia.

## WILL DOUBLE CAPACITY OF THE POND AT YORK

Kittery Water District to Raise  
Two Dams to Increase  
Supply.

One of the improvements to be made in the water service by the Kittery Water District will be the raising of the dams at Polly Pond to increase the supply. One will be raised 6 feet and another 5 feet. This will double the capacity which at present is 100,000,000 gallons.

## TWENTY-TWO MEN WILL BE CALLED FROM YORK COUNTY

York county board No. 1 and York county board No. 2 will each furnish 11 men under call No. 967, who have had at least a grammar school education or its equivalent and have some aptitude for mechanical work, according to an announcement made today by Adjutant General George Mel. In addition, the provost marshal of Maine is called upon to furnish 200 men and they will report at Boston August 16.

### Overruling A Court Custom.

(From the Springfield Republican.)  
There will be wide interest in a recent decision of the Illinois Supreme Court dealing with the discretionary power so generally exercised by prosecuting officers. Some months ago nearly 500 Chicago saloon keepers, charged with violation of the Sunday closing law, were called before Judge Newcomer. The State's attorney moved to nolle prosequi the cases and the judge refused to allow this, unless the evidence were first heard, holding that the prosecuting officer had no authority to dispose of cases without the court's consent. The State's attorney took the matter to the Supreme Court in the form of a writ to compel Judge Newcomer to enter the order to nolle. The judge prepared an answer to this appeal, and the Supreme

### A New Idea in Marketing.

From Hampden County, Mass., where much has been done in the last few years to improve the condition of the farmers and the conditions of country life generally, comes the advocacy of roadside marketing as a means of disposing of farm and garden products. The idea is that farmers living on roads much traveled by automobilists should erect stands by the roadside in front of their houses on which should be displayed samples of what they have to sell. It is claimed that in this way they could dispose of quantities of their produce to automobilists who would be glad to take home vegetables and fruits direct from the farms, and for which they would be willing to pay good prices.

This is a new idea and just how it would work could only be determined by trying the experiment, though it is claimed that it has been tried in some parts of the country with success. There would need to be some one in attendance at the stand and the selling of products in this way would not be entirely without effort. But that is not a matter of consequence, as nothing in this world that is worth having can be had without effort.

The plan might be said to be first cousin of the public market scheme which was introduced a few years ago. This has worked well in some places and failed in others. All are familiar with the general plan of the public market. It is a place where farmers and gardeners can offer their produce to consumers at first hand. Buyers have to go after their supplies and take them home, but these are sure to be fresh and at least a part of the profits of the middleman are saved. To people who insist upon delivery service and the extension of credit neither the public market nor the roadside market will appeal, but those who are willing to meet the producers half way and pay for what they get when they get it will take kindly to such markets.

And that is about all there is to it. There is a considerable element of the community that likes to be waited upon, and when these people are willing to pay for the service there is no reason why they should not be. There are also those who are ready to save a dollar when this can be conveniently done, and these are the people who make the public markets a success where they are a success, and who would also make the roadside markets successful if success for them is possible. As between the two there is reason to believe the public market stands the best chance for success, as the bother of establishing and attending a stand in front of the house would be quite an item, and the results might not be satisfactory if all of the neighbors were doing the same thing.

The encouraging fact is that ways are being devised to bring producers and consumers into direct contact with one another, for to the extent that this is done do benefits come to both.

President Wilson has consented to the enlistment of his personal stenographer, the young man who has been writing his letters and reporting his speeches for some years. But when it comes to a pinch the president is capable of doing something in the line of stenography himself, according to common report.

A Massachusetts man has invented a blueberry picker, with which it is claimed that he has picked ten quarts in twelve minutes. Making every allowance for the merits of the invention, it will have to be admitted that there was pretty good picking where the trial was made.

If Senator Hollis should decide to get into the race again there would in the course of the next few months be further evidence that politics is not adjourned. On the whole, it begins to look as if there were to be some lively doings in New Hampshire next fall.

The question is whether bicycle riding on the sidewalks shall be stopped before or after some one is killed or dangerously hurt. It would be better to stop it before, and if this is to be done now is the time to act.

Everybody is pleased with the news from Washington that the government is to stand the whole expense of the local housing problem. To use a somewhat timeworn expression, "This is as it should be."

In many parts of New England it has again been demonstrated that the St. Swithin's Day weather sign isn't altogether reliable.

The American stone wall is a pretty firm structure, as the Germans learned when they ran up against one the other day.

Ex-Governor Says He Can't  
Give Sufficient Time to  
the Work.

Manchester, July 20.—At a meeting of district fuel administrators here Friday, Ex-Gov. Charles M. Floyd resigned as State Fuel Administrator. Mr. Floyd quits because he believes that the position needs the services of someone who can devote more of his time to it than he can.

Mr. Floyd said that Federal Fuel Administrator Garfield had accepted his resignation, but pending the appointment of his successor he would serve as head of the State administration.

The State's allotment is 320,000 net tons, which is 50,000 net tons less than that estimated.

**No Fit Time For Politics**  
(From the New York Journal of Commerce and Commercial Bulletin)  
This is a time when there ought not to be any rank partisanship in a state like this, and when the choice of the people for candidates of their party, as well as the officials should be free of control by "bosses" or "leaders."

And yet politicians of both parties are unusually active and dominating in their effort to control nominations. They even get up "conferences," which in character and purpose are much like the old conventions, but with a free hand in determining choice than when they had to secure the favor of delegates. The present government is determined to run for a third term, whether his party wants him or not, and his conduct in office has been abominable for a year or more. It has brought into the conflict as a rival member of the same administration who is seeking nomination at the primaries, but the governor is getting a conference of politicians ready to determine the choice in advance.

**Scholarship For French Girls**  
(From the New York Evening Post)  
While many plans for closer educational relations between America and Allied countries after the war have been advocated one has been fully launched. The Associated of American Colleges expects to have more than one hundred French girls here next winter. Nearly seventy colleges and universities have offered scholarships—most of them two each—covering living costs board and tuition. Some institutions will pay travel and incidental expenses; this generosity being sometimes made possible from by contributions the student body and graduates. Eighteen States are now represented in the list the Middle West, Illinois, Ohio, Wisconsin and Iowa—leading in thine scholarships might be extended to other countries. But however, it would be better to make the scholarships for the French women permanent. The money should be easily found.

**Old Clothes During The War**  
(From the New York World)  
"No new dresses" is the slogan raised by members of the National Women's Liberty Loan Committee, in conference at Chicago to devise means for increasing women's activities in the next war-bond campaign. The economy is urged with the idea of making their fashionable for the period of the war. But, in fact, as respects all women's fashions, wearing old clothes, voluntary now, may soon be made compulsory in view of the military requirements for wool. Men in particular, apart from the cost of new clothes, are likely to find it expedient to make their old suits serve as long as possible.

The dyers and cleaners of the country, who are holding a convention at Atlantic City, show themselves alive to the situation. They have taken advantage of the opportunity to have their industry recognized by the Government as essential to the winning of the war and are about to begin a publicity campaign to educate the public to the possibilities of reclaiming old clothing through modern processes of cleaning and dyeing.

Meantime the Government itself is setting an excellent example. At the repair shops and cleaning plants established by the Quartermaster Corps at the army cantonments 307,455 pieces of wearing apparel were repaired and 435,102 pieces dry-cleaned in May, and the issue of new clothing materially reduced. Certainly if the Government can afford to save old clothes the public can. There is no reproach in an old coat nowadays if it is clean and it may even serve in the circumstances as a uniform of patriotism.

After-war boycott of Germany and of German trade will not depend upon government action. If Washington, London, Paris, Rome, Tokio, throw down the bars utterly upon the signing of a treaty of peace, and formally forgive and forget the Teutons will still find themselves outcast and the longer the war continues and the more universally the men of the world find themselves involved in it, the more uncompromising and the more continuing will be the post-bellum punishment inflicted upon the people of the Central empire.

The staid taken by the British seamen will serve as a basis for a social and commercial ostracism of the German people; the utter obnoxiousness of the whole world, will be the superstructure. No one will dare to touch, or use Teutonic products. The general feeling will be the feeling of the Norwegian pilot who returned after the medals the Kaiser had given him, because they had become repulsive. The world will want nothing to do with Germany or with things German. They will look upon them as leprous. This will be the real punishment of the Teutons.

## CAPT. CHRISTY THANKS OUR CITIZENS

In a Letter to Local War Camp  
Committee He Refers to  
Excellent Treatment.

The fact that Portsmouth had been the home life of the 1200 men of the San Diego for three weeks made the news of the ship's loss a severe blow locally. The boys had made hosts of friends here. This is the second big cruiser with Portsmouth as the home port to be lost. The Memphis was wrecked at Haiti, Captain Christy's letter follows:

July 17, 1918.

John B. Hebbard, Esq.

N. H. National Bank Building.

Portsmouth, N. H.

Dear Mr. Hebbard:

On behalf of the officers and crew of the San Diego I beg to thank you for your very successful efforts to provide good, wholesome, elevating entertainment for us during our visit to your port.

Hoping we may again have the opportunity and good fortune of accepting more of the hospitality you have offered to provide us in various forms to suit all tastes, I remain,

Very cordially yours,

AL H. CHRISTY,

Captain, U. S. Navy, Commanding

## NAVY YARD NOTES

This is Quor

Benjamin L. Martin, Jr., of the United States marine corps, and his brother, Edward V. Martin, water tender, both of the U. S. S. Arkansas of Cumberland, Md., traveled on the ocean aboard the same ship for nine months, neither knowing that the other was aboard.

The boys met recently when they were leaving the ship at the same time to go on a furlough.

The brothers had not seen each other for nine years, prior to boarding the Arkansas—one as a marine and one as a sailor.

**(Killed One Man)**

Naval authorities are investigating the cause of the destruction of a laundry machine on the Norfolk yard, killing one and injuring several. The machine broke in a thousand pieces.

**To Speed Up Destroyers**

Efforts to speed up construction of destroyers are under way by the Navy Department. Secretary Daniels has called into conference representatives of all shipbuilders working on destroyers with a view to speeding up work so that destroyers may be put into action at the earliest possible moment.

Secretary Daniels said that destroyer building was proceeding well but not as rapidly as he believed possible and efforts to reach the maximum speed are being attempted.

**Trophy Guns on Way to U. S.**

A heavy German Maxim machine gun and two heavy minenwerfers captured by the Sixth Marines in Belleau Wood June 10 and 11, are being sent to America. The minenwerfers will be presented to the army and navy and enter as trophies of an action where more than 100 Germans were captured, while twenty-three machine guns were seized or destroyed. Five of the Maxims were turned against the Germans.

**The Same as Civilians**

Naval officers and their families when dealing at commissary stores will observe the same voluntary rationing of sugar as civilians. The Food Administration has announced that Rear Admiral Samuel McGowan, paymaster general of the navy, has issued an order making the three pounds per capita monthly ration of sugar to the public that of the navy shore stations.

**Three Mechanics, Five Helpers.**

A call was made today for three sheet metal workers and six woodworker's helpers.

**Want a Shop League.**

Much interest has developed among the several shops at the Portsmouth navy yard for a shop baseball league confined to the local station.

The promoters are in hopes of organizing a six or eight team league. The shops contain many good players and it is thought that the league if organized could utilize the navy yard grounds for the games.

**Enlists in Reserves.**

Ray F. Shaw, son of Mr. and Mrs. W. H. Shaw, has enlisted in the naval reserves at the Portsmouth navy yard.

Two hundred Smiths, riding in vehicles typical of the five generations represented, recently celebrated the 100th birthday anniversary of William Smith in Alton, Ill., who himself led the procession in a pioneer wagon with solid wooden wheels. He "sat" amid relics of 100 years ago. Smith was born in England and came to America when 17 years old.

Catholics should go to Mass.  
Readers should go to Conn.  
Sailors should go to Pa.  
Debtors should go to Ohio.  
Physicians should go to Ill.  
Atheists should go to Tenn.  
Young men should go to Miss.  
Miners should go to Oco.  
Farmers should go to Mo.  
Laundresses should go to Wash.

The armored cruiser San Diego, formerly the California, was launched at San Francisco April 28, 1901, and at that time was considered the latest and best in the shipbuilding line. The model British cruiser Drake was her nearest rival for excellence. Completed, she cost \$5,000,000, her hull and machinery costing \$3,800,000.

She was 503 feet long on the load-water line, had an extreme breadth of beam of 69½ feet, her mean draft was 21 feet, and she displaced 13,110 tons. She had twin screw and triple expansion engines of 25,000 horsepower, capable of developing a speed of 22 knots an hour. Her original armament consisted of four eight-inch, 11 six-inch, 15 three-inch and 30 smaller guns.

An explosion aboard the San Diego, off La Paz, Mexico, resulted in five being killed and several injured. Four of her batteries were put out of commission by the accident.

The crew of the cruiser established a world's record for torpedo firing Feb. 19, 1911, when 5½ hits were made out of seven shots, the firing being at a range of 3000 yards while the vessel was steaming at the rate of 10 knots an hour.

When the keel of the battleship California was laid, the Navy officials changed the name of the cruiser to the San Diego.

The San Diego served for years as flagship of the Pacific fleet, and similar craft have been found very valuable in connection with convoy work, although classified as of limited military value for ordinary naval operations.

The ships of this type do not contain modern devices to protect them from submarine attacks.

What is said to be the most expensive chair in the world belongs to the Pope; it is of solid silver and is said to have cost \$30,000.

In certain of the rural sections of England it is a belief that a bride at the altar, to insure a happy wedded life, should on no account allow anyone to speak to her husband before she has addressed him by name.

# CELEBRATE VICTORY OF U. S. TROOPS

**Thousands Parade and Whistles Blow  
For Victory of Allied Troops on Thurs-  
day--Crowd Get Queer Rumors of  
Victory**

The victory of the American and French armies in their drive of Thursday in which they advanced several miles into German territory, was celebrated in this city on Friday evening, with a parade and a band, the blowing of the fire alarm and hundreds of whistles. To the greater part of the parade in their celebration was in belief that the Crown Prince army had been routed, that 300,000 Germans had been captured, and some even thought that the Kaiser himself was captured.

It was unfortunate that there were none of these rumors true, they came from unreliable sources and were not in any way verified by the press reports during the day of evening.

Portsmouth was not the only city that celebrated and raised the hopes of everybody. Gov. McCall proclaimed a celebration in Massachusetts for the victory of Thursday and because it was held Friday it gave the impression that the Americans and French had made more wonderful advance than of the previous day.

The celebration here started when at the base ball ground Mayor Ladd announced that there had been a big victory, and this started the owner of every automobile to open up their horns, they came over to the front with the horns wide open. Then the whistles on all of the factories and the fire alarm started.

The band was hastily got together and paraded with flag bearers in front, and this quickly gathered the men until at one time there was possible two thousand men women and boys in the everybody enthusiastic and cheering at every rumor that came out. At one time they were even delighted and willing to believe that the Kaiser was dead or captured.

With the first rush of the crowd and the bells and whistles every telephone within a radius of ten miles of the city apparently got busy and the girls at the telephone exchange were simply swamped. There are two lines into the Chronicle office and the general public knowing that this office has the Associated Press with its most authentic news in the world, began a bombardment of this office and for two hours there was not a second that both of the lines were not busy. At first it was to find the cause of the celebration, and they were informed that both of the lines were not busy, then they began to get the rumors and the news that the Mayor had stated that the Crown Prince army was surrounded and then this they wanted verified, which unfortunately the Associated Press latest dispatches did not warrant any such statement. The calls came from York, Newmarket, Hampton and all of the surrounding towns and the operators in the telephone office did their best to relieve the strain by repeating the news.

The bulletin board of the Chronicle office was besieged, but here the crowd found the announcement of the sinking of the U. S. Armored cruiser San Diego, which was posted at seven o'clock, and when they realized that this was the first big American war ship that the Germans had sunk, it took the edge off the celebration. The fact that the San Diego had only sailed from the Portsmouth Navy Yard on Thursday morning made it especially sad for this city, as there are so many of the families of the officers and crew of this ship still here.

## THE CITY SHOULD TAKE CHARGE OF ONE OF THE CLOCKS

**Would Be a Great Accommodation to the People at the West End.**

The residents of the west end of the city are grateful to the Eldredge Brewing Company, which has kept the clock on the tower in operation since the closing of the plant. However, neither the Eldredge nor the Frank Jones clock are illuminated at night and the clock of the Jones plant has been dead for many weeks.

This busy section of the city should have the time light and day and while the respective companies no doubt do not see their way clear to operate the clocks at an expense there is no reason why one or the other should not be operated and illuminated by the city. Why cannot the city council enter into an agreement with either company and arrange this matter for the benefit of the public.

The city has a man who cares for the clock at the South End and why not let him handle one of the two at the West End? No doubt but what either company would be pleased to have the city take charge of the clock with no charge for the same. It would be a great accommodation with a little expense to the city for care of the same.

## DEALERS MUST REPORT OR LOSE THEIR SUPPLY

Carrying out the warning conveyed in telegrams to 750 coal dealers in New England that if they did not file the weekly reports required of them by July 10, their supply of coal would be cut off, letters were forwarded by Fuel Administrator Garfield yesterday to the state administrators, instructing them to request railroad agents in each town in their respective states to direct coal moving to dealers who have failed to report, consigning such coal to dealers in the same town who have reported. A list of dealers who have failed to

comply with the instructions of the fuel administration has been sent to the state fuel administrators. The list included three dealers in Connecticut, three in New Hampshire, two in Vermont, five in Rhode Island, 20 in Massachusetts and 37 in Maine.

In his letter Mr. Garfield says: "It is extremely important that we impress all these dealers with the importance of making report cards promptly each week and there is no more forcible way of bringing this home to them than by stopping their shipments when they fail to do their part."

## PERSONALS

Weather in Portsmouth and vicinity: Fair tonight and Sunday.

Stanley Boliver of Farmington has taken a position at the navy yard.

Wyatt Berry of the Prudential Insurance Company has accepted a position at the Atlantic Corporation.

Mrs. E. G. Haskell has returned from Manchester after a two weeks' visit with relatives in this city and Rye.

Mrs. Velma Blakey and Miss Christina Smith of Arlington Heights visited Mrs. Elmer Caswell of Rye on Friday.

Mrs. Patrick Harrington of Daniel street has returned from the Portsmouth Hospital, where she underwent a surgical treatment.

Hurly Dyer of Stratham has been drafted from Cumberland County, Me., District 2, and will go to Camp Devens on July 26.

William Riley of Buffalo, New York, member of the War Exemption Board of that city, and who is also engaged in other war work, is the guest of his friend, Fred H. Ward, for a few days.

## OBITUARY

Mrs. Margaret Monroe.

Mrs. Margaret Monroe, widow of Andrew Monroe, passed away at the Home for Aged Women on Essex street Friday afternoon after a long illness, aged 89 years. She is survived by one daughter and two sons and several grandchildren and great grandchildren. Services will be held from the Home for Aged Women Sunday afternoon at 2 o'clock. Friends invited.

## WAS NURSE TO ADMIRAL DEWEY'S SON

**Mrs. Margaret Monroe, Aged 89, Died at Home for Aged Women on Friday.**

Mrs. Margaret Monroe, aged 89, widow of Andrew Monroe, died Friday at the Home for Aged Women. She was a nurse for many years, and in this capacity cared for George Dewey, only son of the late Admiral Dewey, for nearly a year after the death of his mother. She also was a nurse in the Winslow family in Boston for seven years. She leaves two sons, Robert and George Monroe of Everett; and a daughter, Mrs. Charles T. Wiggin of this city.

A way to give the United States a war-time birthday present without violating the law against acceptance of gratuities by the Government has been found by William Romaline of San Francisco. He induced an unused but canceled \$5 postage stamp in a Fourth of July note to Postmaster General Burdison, wishing Uncle Sam many happy returns.

## U. S. S. SAN DIEGO SUNK BY A MINE

(Continued from Page One)

of the survivors can be secured it will be impossible to tell just what was the cause of the sinking.

Late tonight officers and men were confident that there was no loss of life, but it is apparent that officials are expected that there will be some men lost.

The return of the undersea raider was always to be expected and it would not be any great surprise if it was the work of a German submarine. The popular effect of the sinking has been to arouse great indignation which will result in greatly increased recruiting.

It may be stated here that the Navy has taken every precaution to protect the coast and that the return of the submarine will not have the effect of recalling any of the American ships in foreign waters.

New York, July 19.—The cruiser San Diego was on her way from the Portsmouth Navy Yard to New York, after a ten days overhauling, having sailed from the Portsmouth Yard Thursday forenoon.

Whether there has been a toll of lives is not known late tonight, 335 survivors out of the crew of 1141 have been accounted for, of these 300 officers and men reached this city on a tank steamer, 32 with a lieutenant and an ensign were landed at Long Island in a life boat. The rest were reported to have been picked up by steamers and boats.

Persons at Bay Shore, Long Island, said that they heard gun fire shortly before noon indicating that the cruiser may have been engaged with a submarine.

Although the Navy Department has announced the cause of the sinking of the San Diego, information received from reliable source is that a submarine has been operating on the coast and that the cruiser was probably torpedoed, although there was the possibility of a collision, in a final explosion or striking drifting mine.

The Cruiser San Diego sailed from this yard at 3.30 on Thursday for New York, after having been here for 3 weeks for dry docking and overhauling. The officers and crew had the first liberty here that they have had for some months having been on convoy work back and forth from Europe.

The first information reaching this city was to the Chronicle from the Associated Press and this was telephoned to the officers at the navy yard, and it was their first news of the disaster. This was shortly after seven o'clock.

From the Chronicle Bulletin board the news quickly spread and there was a great many inquiries, as many of the families of the officers and men are still in this city, this being the home port of the ship.

Captain H. H. Christie the commanding officer is well known here and he was present at the launching of the Shattuck ship yard on July 4th. The officers and men had a host of friends here and it was with satisfaction to them all that the news carried the information that there had probably been no loss of life.

G. M. Weiss, the contractor in charge of the building of the new barracks at the navy yard, has rented the Nelson cottage at York Harbor for the season.

Three young men from this city, one from Kittery and another from Eliot, who recently enrolled as seamen in the United States Merchant Marine, left the local recruiting station, Boardman and Norton's, this morning for Boston.

They will go aboard the training ship Calvin Austin, and after several weeks' training will be assigned to merchant ships.

The names of the young men who left today are as follows:  
Stanley Howard Pierce, 18 Mulberry street.

Both Everett Gardner, 2 Dearborn place.

John Joseph Walsh, 533 Wellington street.

Ernest Howard Numan of Eliot and Harry Philip Fisher of Kittery.

## WILL HOLD FIELD DAY AT DURHAM

Durham, July 20.—A state wide patriotic field day will be held at New Hampshire College, Thursday, August 22, to enable the people of the state to see the college and the army detachment at its training here. It is expected that there will be 5000 people in attendance.

Durham is more interesting this summer than ever before for the 532 soldiers now here and the 500, who just have graduated from here and been distributed to various camps where they were needed in this country and abroad, have built new buildings all over the campus and have very materially changed the general aspect of the college. Among these buildings are two large barracks, and a mess hall is about to be begun. For the time being the men are using the college gymnasium as a mess hall.

Guides will meet all trains August 22 and conduct the guests through the college buildings, shops, laboratories, poultry plants, orchards, gardens, experimental plots and through the various buildings belonging to the army camp. Several state wide organizations have sketched their intention of co-operating and urging their members to attend on this day. Many of the associations intend to take advantage of this occasion to have conferences here on the morning of the 22nd.

The afternoon program will consist of music and patriotic addresses delivered by speakers of national reputation.

Ralph D. Palmer of Durham spoke to a large gathering of the latest recruits to the National Army training camp detachment here Thursday, telling of his experiences with the American fleet in British and French waters.

The location of the city of Rio de Janeiro, Brazil, is such that it is cut off from cool winds by an elevation known as Castello Hill. For a hundred years or more it has been proposed that this obstruction be removed, and now a syndicate has been formed which has applied to the Government for permission to level the hill, using the material removed to reclaim a large area of submerged land. The work will involve the removal of 30,000,000 cubic yards of earth and rock.

## SENATOR HALE'S BROTHER AT CAMP DEVENS

Camp Devens, July 20.—Eugene Hale, Jr., a brother of Senator Hale of Maine, has found his way into the National Army as a recruit of the 12th Company, Depot Brigade, here, although he is 42 years old, 30 years over the age limit.

Recruit Hale went to France as a civilian relief worker early in the war. He returned to America to get into the war more actively, but for some time was unsuccessful. Now he is here in uniform and anxious to go through with the youngsters between 20 and 30.

## SOLDIERS AND WOMEN GETTING COAL FROM U. S.

(By Associated Press)

Portland, Me., July 19.—Six soldiers and two women are under arrest here for taking part in a conspiracy to defraud the government out of thousands of dollars in coal. The women are Mrs. Catherine Winter, keeper of a lodging house and Mrs. Allison Gardner of South Portland charged with receiving some of the coal.

Their arrest was the result of the capture of Karl Reinertz, a private in the quartermaster corps, an Austrian by birth and with a record of eight years in the regular army. He was arrested in civilian clothes on his way to the railroad station. The arrest resulted in the unfolding of the plot to rob the government of coal and clothing. Five other soldiers are also under arrest.

## BASE BALL DECLARED NON-ESSENTIAL

(By Associated Press)

Washington, July 19.—Professional baseball was held as non-essential occupation under the work or fight rule by Secretary Baker today. He said "I have decided that the work or fight rule can include base ball said Mr. Baker. The Secretary also expressed an opinion that the draft regulations should be changed so as to include all persons engaged solely in the work of entertaining, without the need of it being taken care of in the work or fight rule.

The following officers were seated: George B. Lord, N. G.; Wilder A. Neal, V. G.; Walter A. Goodwin, T. S.; Henry Whitehouse, P. S.; Herbert J. Steves, treasurer; Charles R. Hall, R. S. V. G.; Edgar J. Batchelder, L. S. V. G.; Harry E. Nichols, warden; George A. Murray, conductor; Fred C. Stewart, R. S. S.; Harry Spinney, L. S. S.; Anderson C. Hall, chaplain; Elmer C. Drake, I. G.; Herbert Brown, O. G.; William A. Piper, T. G.; Fred Boothby, L. S. V. G. Following the installation a social session was held, after which refreshments were served.

Notices to 79 registrants of the class of 1918 were sent out by the local board for Strafford county Friday, calling the men to appear for physical examination at the Strafford county court house, Dover, Monday morning at 9 o'clock. The remainder of the class will be examined Tuesday. Thus the entire list of new registrants will be examined in two days.

The marriage of Peter A. Johnson and Miss Helen G. Bickford, at Boston, Nov. 23, was announced Friday. Mr. and Mrs. Johnson kept the secret of their marriage until very recently, when they decided to move to Boston. Mrs. Johnson is the daughter of Mr. and Mrs. Alta E. Bickford, 69 Fourth street, and is a graduate of the Dover schools. Mr. Johnson is a salesman for the Batchelder and Snyder company of Boston. Until recently Mrs. Johnson was employed as a stenographer by the U. S. government.

## TO HAVE A PUBLIC PARK IN DOVER

### City Council Votes to Purchase Towle Field, Also to Have Swimming Pool.

At a special meeting of the Dover City Council Friday night a public park to be known as the Woodman Park, was provided through a vote to purchase for \$10,000 the Towle field, a 26-acre tract on the south side of that city, with five acres of Judge George S. Frost's land adjoining and extending to the Bellamy River.

The price of the latter was \$500. The purchase money is from the original bequest of Theodore W. Woodman to the city for a park.

The council also voted to accept the Jeremy B. Guppy bequest of \$5000 for a public swimming pool and to investigate the adequacy of the water supply in Guppy Park for its establishment there. It appropriated \$150 from the Guppy bequest toward providing another swimming pool on the Bellamy in Woodman Park.

A quick claim deed from the Waldron heirs of the historic Waldron Burying Ground, where lie the bones of Major Richard Waldron of Colonial fame, was accepted and the ground placed under the care of the Pine Hill Cemetery trustees.

The Shattuck defeated the Atlantic baseball team in a postponed game in the Sunset league schedule on Friday evening. In one of the best games of the season. It was full of brilliant plays and a pitchers battle, Johnson for the winning team and Pierrotti for the losing ship builders allowing but few hits.

One of the feature plays was the catch Silva made of Conlon's ball over short and the remarkable recovery and throw of Conlon of Mitchell's ground hit upon which he slipped as he took the ball, fell recovered the ball and threw it first almost in time to get the runner.

Johnson allowed but four hits three of these in the fourth when the Atlantic gathered in their two runs, he allowed but one pass and was always in command. Pierrotti allowed but three hits well scattered but errors and five passes that he gave defeated him.

The Shattuck Shipbuilders got their first run in the second, Conlon was robbed of a hit by Silva's brilliant catch. Slattery fled to Murray who muffed the ball and Slattery kept on to second, a passed ball gave him

third and he scored when Burgess was thrown out at first by Silva. They scored in the third on a two-bunt hit by McKee which he worked into a run by daring base running going down on a long fly to center that Swasey gathered in and scoring when McKee was thrown out at first by Silva. They added another in the fourth after two men were gone, when Burgess drew a pass, advanced on a wild pitch and scored on Johnson's single.

In the fifth they landed another tally, McKee getting on through Robinson's error, Christine was thrown out at first advancing him to second and he scored on McKee's single.

The Atlantic did not get a look in until the fourth when, Elgrim got on by Christine's boot, Silva, Swasey and Kincaid came through with hits and Elgrim and Silva scored, with two men on Johnson tightened and McKee was thrown out by Conlon, Cavannah struck out and Robinson was retired by Conlon. They got men on in the sixth and seventh but could not get them across.

## THE ESPERANTO CONGRESS AT ELIOT.

The first day of the Esperanto Congress at Green Acre, South Eliot, has passed off with great eclat. The closing of the Green Acre Inn made the problem of housing the delegates one of no small seriousness; but the kindly cooperation of the cottagers and residents of South Eliot and Eliot made a successful solution possible.

The first business session opened at about 3.30 p. m. In the absence of the president and vice president, Mr. Ernest P. Dow, secretary-treasurer, called the meeting to order, presenting Mr. George W. Lee of Boston, chairman of the committee on arrangements, who, after a brief introductory statement, resigned the chair to Mr. James F. Morton, Jr., of New York.

An address of welcome by Alfred E. Lunt, chairman of the Board of Trustees of the Green Acre Fellowship, was replied to by Dr. O. S. Lowell, headmaster of the Roxbury Latin School. After the appointment of a committee on resolutions, consisting of Dr. Lowell, Miss Weems of Baltimore and Miss Butler of New York, reports from districts and committees were read, followed by a number of communications. Invitations for the next Congress were received from New York, Chicago, San Francisco and St. Louis. A brief address on the Green Acre and those of Esperanto was made by Mr. Morton, after which the Congress was adjourned to the following morning.

In the evening a reception was held at the Green Acre Fellowship house, which was fully attended by the delegates as residents of Green Acre, as well as by a number of neighboring residents. Mrs. Salina B. Fekner presided over a brief program, consisting of a song of welcome, written in Esperanto for the occasion by Mr. Morton, and set to music by Miss Klein, sung by a group of young girls from the Green Acre Esperanto class, an address of welcome by Mrs. Fekner, Other and a response by Dr. Lowell. A Love Song by Flegler, sung by Mrs. Edith Ingalls, with piano accompaniment by Mrs. Elizabeth Hanson and violinello accompaniment by Mrs. Gail Libbey; a tableau dance by Miss Margaret Fekner, assisted by a group of girl friends, and accompanied at the piano by Miss Alice Ashton; and the Esperanto International hymn, "La Espero," sung by the delegates. The rest of the evening was spent in social intercourse, light refreshments being served.

## BUNDY SAID FLAG SHOULD NOT RETIRE

Washington, July 19.—The American people are taking the initiative in the drive the Allies have under way, General Pershing's reports in the Secretary of War during the last thirty-six hours dwell on this important feature of the drive. The American spirit that resulted in the counter-attacks which have been under way during the last two days was reflected in the dispatch that General Bundy, in command of the Second Division, sent to the French general, who was superior to him, in which he said that it was understandable that the American flag should be forced to retire. It can be said authoritatively that General Bundy was the author of this dispatch which will unquestionably find a place in the school histories of the future. The sentiment of the American general, instead of offending the French, gave them new inspiration, according to reports now coming to headquarters here, and as a result the American corps and division commanders were practically given free rein to initiate counter-attacks.

**POST CARDS ON THE DECLINE.**  
The picture post card has declined in popularity since the postage rate increased and the number that is sent through the mails now has greatly decreased. The post card saved time and correspondence and often served the purpose as well as a short letter. Its educational value was of worth while, for many who had little time or means to travel.

### DEPARTURE MUST BE KNOWN TO U-BOATS

The sinking of the armored cruiser San Diego, which left the local navy yard on Thursday, bears out the suspicion that the actual departure of ships from American ports must be known to submarine commanders. The loss of this ship caused deep sorrow about Portsmouth, and the local celebration Friday evening in the face of this fact is to be understood by our citizens.

The funeral of John W. Robinson will be held at his late home, No. 70 Hancock street, Monday afternoon at 2 o'clock. Friends invited.—Adv.

### RUMORS ARE UNFOUNDED

There is absolutely no truth in the report that a bomb had been placed on board the San Diego while that vessel was here. The story that a spy had been arrested at the Navy Yard on Thursday is without foundation. There has been no discharge, big or little, at either of the ship yards.

#### SPECIAL NOTICE

Local No. 351, International Brotherhood of Stationary Firemen and Oilers will close its charter at the next regular meeting held Sunday, July 21, 1918, at Socialist Hall, 33 Congress street at 8 o'clock. All Firemen, Oilers, Tenderers and Helpers wishing to become members, will please present their names on or before that time.

It was some celebration at a short notice.

## LARGER DRY DOCKS ARE NEEDED HERE

This Navy Yard Should Receive Some Improvements Other Yards Are Getting.

The value of our Navy Yard should be fully recognized. No naval station can ever obtain permanent bigness unless it is fully provided with large dry docks, large enough for the ships of today and the ships of the future. The ideal place for these docks are right here at the Portsmouth navy yard. There are no ships too large to enter this harbor at any time. We need the co-operation of the officers and men at the navy yard to attain it. We have waited altogether too long for these improvements. Norfolk, Charleston, New York and Boston are enjoying great prosperity under the new construction. Let's keep this matter thoroughly alive and push it to a successful conclusion.

## COAL ADVANCES IN PRICE IN THIS CITY

In keeping with the advance in coal in other cities, the local fuel committee today announced that there would be an advance in the price of the fuel in this city.

The local fuel committee issued the following announcement to the public today:

"Owing to an increase of 50 cents per ton freight rate and owing to increase of shipments of independent coal on which the Government allows ninety-five cents increase, it has been determined that the following prices shall go into effect on Monday, July 22nd.

"These prices have been submitted to and approved by the Government. Chestnut, Stove, Egg and Broken coal—\$11.25.  
Pen coal—\$10.25.  
Soft coal—\$9.50.  
"At this time we again wish to advise the public that the allotment of coal for Portsmouth has been cut 20 per cent. Consumers are warned to save their coal for the winter month. Very truly yours,  
H. C. TAYLOR

## THE HERALD HEARS

That three brothers all over 70 years of age are employed at the Shattuck shipyard.

That they are reckoned among the best men at the plant for their knowledge of wooden ship construction.

That Miss Gail Schneider of Los Angeles, Cal., a recent bride in that city, hit upon a novel way to get some money for the Red Cross.

That she, recently a big girl, invited 1000 people to her wedding and charged 50 cents for each guest.

That neither attendance nor number of presents received was cut down by the admission charge.

That the many holes in the asphalt paving will be filled in next week on several of the streets by the Warren Brothers doing contract work here.

That Martin J. McGhee of Reading, Cal., who just died at the age of 82 certainly had some hair, trunk and more than a "little bunch of whiskers on his chin."

That he had never shaved his beard which had been growing since he was 17 years old.

That his whiskers measured six feet and nine inches in length.

That he kept the growth braided and pinned up under his chin, never unfolding it in public except on rare occasions.

That passengers on the evening train to this city from Boston on Friday say things were lively along the line in nearly every station.

That two graduate nurses from the Long Island Hospital at Boston passed the physical examination at the British Canadian Recruiting Mission to complete their enlistment for war service.

That one was a Canadian and the other a Scotch lassie.

That a third female appearing for the examination was not a trained nurse.

That she knocked the hat off of Capt. McNair, the president of the Medical Board when she told him that she was not a trained nurse but a corset maker.

That she told the Captain that she had taken up nursing for a side line to learn more about the anatomy to help her out in making corsets.

That she staggered the medical officer when she wanted him to assure her "nothing but clean cases, without much blood."

That he told her to stick to the minor article of dress and continue to modify shape.

That he was afraid that the story

maker would not stay long and she must confine her efforts to her adopted line.

That what Portsmouth did on Friday night was only a sample of what will take place when the boys come home and the Kaiser is down and out.

That the price of mackerel in Portsmouth still swears regardless of the fact that \$30,000 worth was landed at a Boston fish pier on Thursday.

That the price of the fish to retailers was reported at 9 cents per pound.

That six sailors also brought in many swordfish, cod and haddock.

That the business men on High street will ask for the paving of that street very way.

That some optical instrument is necessary to view the young flag on the pole at the playground.

That the Manchester Engineering Company of Manchester, N. H., is engaged on a sub-building contract in this city.

## SHATTUCK SHIP YARD NOTES

First number of the employees bulletin, "The Treenall" has appeared.

Lynskey, who has been in the yard team, has completed his duties.

Third typhoon ship, Brickett was in Nashua on Friday, and was missed from the team.

The following presentations have taken place since the triple launching. In addition to the recognition of Supt. of Hulls, Reuben Greene, Asst. E. P. Maxim has been presented with a gold watch. Presentation speech was made by Harry Heath, Foreman John Gammage, Jr., of the Milton, Foreman Ernest Gammage of the Roy II, Beattie, and Foreman Thomas Harvey of the Chibbiaboy each were given elegant gold watches and chains.

Night Foreman Charles Young of No. 6 was given a well-filled purse. Asst. Foreman Anthony Custer of the Milton received a fine Masonic stone ring; the sub-Foreman Hobbschman a gold watch. Sub-Foreman Fred Greenlaw and Virgil Pierce received costly rings as tokens, while those presented with heavy purses were Asst. Foreman Furner and "Chick" Greenlaw. Of course Night Supt. Will Green was not overlooked and the boys all of the yard contributed to make up a dandy purse.

## AUTO CRASHES INTO POLE ON THE HIGHWAY

Machine Badly Wrecked and Boy Sustains Injuries.

A. N. Channoud and his son Armand of 53 Broadway, Haverhill, Mass., had a narrow escape from a more serious injury this morning on the highway between this city and Dover Point.

They were returning from a two weeks vacation in Canada, and were on their way home in an automobile.

The father is said to have lost control of the machine which crashed into a telephone pole on the highway.

They were both thrown over the front part of the machine. The father escaped with minor injuries while the son's left side of the head was split requiring several stitches, left thumb badly lacerated and face badly bruised.

The police ambulance took the son to the Portsmouth Hospital where he was treated and later the father and son were able to leave for home by train.

Called to Biddeford

The Portsmouth wrecking train of the Boston & Maine, was called to Biddeford this morning at 6 o'clock for some trouble on the eastern route of the Portland division.

### ADVANCE IS CONTINUED BY ALLIES

The Battle Line is Being Extended South of the Aisne and Marne Toward Chateau-Thierry -- German Prisoners Taken Now Total 18,800

(By Associated Press)  
With the American Army on the Aisne-Marne front, July 20, the Americans and French troops are continuing their advance along the 25-mile front in all sectors. More prisoners and guns are being brought in.

The battle zone along the front of the allied counter-attack between the Aisne and Marne rivers is being extended further south toward Chateau-Thierry, according to information received early this morning.

The attempts of the Crown Prince's generals to rally their forces to meet the steady movement of the allies, has resulted in such strengthening of the opposition as to indicate that the battle is approaching a point when the armies will be locked in a gigantic struggle.

Both on the northern end of the line and south the reinforced Germans are making a desperate effort to hold their position. The Franco-American forces are continuing the steady pounding of the northern part of the line near Soissons, although the movement is lacking the dash and advance which characterized the first days of the advance attack.

London, July 20.—French troops on

the Soissons front have extended their advance from Mont de Paris southwest of the city to Belleu, a town southwest of Soissons.

On the Rheims front the French have advanced for a distance of 1000 yards between Souilly and Auberville. The French also made slight progress near Monroy. The number of German prisoners taken in the Franco-American offensive now has reached 18,800.

With the French Army in France, July 20.—Entente killed troops today are driving back the Germans on the south bank of the Marne and are approaching the river embankment.

### WILL CLOSE BALL SEASON TOMORROW

(By Associated Press)  
Cleveland, July 20.—President Dunn of the Cleveland American League Club today sent the following message to Cleveland from Chicago:

"We will play a double-header with Philadelphia tomorrow and will then close the ball park for the balance of the season. It is our desire to comply promptly with Secretary Baker's ruling on baseball."

### BALL CLUBS ASKED TO END SEASON

(By Associated Press)  
Chicago, July 20.—A message to all baseball club owners in the American League asking them if they were willing to abide by Secretary Baker's order at once, was sent to them today by President Stan Johnson.

The action of the Cleveland club in closing its season Sunday is the first result of the ruling.

(By Associated Press)

Washington, July 20, Latest 3 p. m.—Captain Harley H. Christy of the San Diego, reported his belief that it was a torpedo that sent the vessel down off Fire Island yesterday, further reports today showed that five or six mines were destroyed by warships in that vicinity last night, strengthening the opinion of naval officers here that an enemy submarine was not responsible for the disaster.

A statement by Rear Admiral Palmer, acting secretary of the navy, describing the gallant conduct of Captain Christy and his men emphasized the absence of any evidence of the reappearance of the enemy raiders.

There was little, if any, loss of life as indicated by the fact that the ship was abandoned in good order, all hands remaining at their posts until ordered to take to the boats.

Rear Admiral Palmer's statement commends the exemplary conduct of the officers and men of the San Diego, stating particularly the courageous behavior of Captain Christy who was the last to leave the ship, and as the cruiser was turning over, the Captain made his way over the side and jumped overboard. He and the executive officer were cheered by the men in the boats and as the vessel went down they sang "The Star Spangled Banner."

Washington, July 20.—Captain H. H. Christy of the U. S. S. San Diego has officially reported to the Navy Department that he believes that his ship was torpedoed.

At 12 o'clock noon today the Navy Department was without any official information as to whether there was any loss of life or not.

Captain Christy states that when the ship was hit that every man went to his station and the work of launching life-saving gear was like an every day drill.

Washington, July 20.—The Chief of Staff of the cruiser force announced this noon that in his opinion the U. S. S. San Diego was torpedoed.

Point of Woods, N. Y., 2.30 A. M., July 20.—Survivors of the cruiser San Diego sunk ten miles off Fire Island light shortly before noon Friday, declared that members of the engine room crew must have been killed by the explosion which sunk the cruiser. They were uncertain whether the cruiser was sunk by submarine or a mine. The cruiser remained afloat for thirty-six minutes after the explosion, which was just aft of mid-ship and blew up her boilers.

They state that the guns of the cruiser were fired at what was thought to be a periscope just before the explosion took place.

Thirty-five men, including six officers were landed here. They report that the Captain and first officer were the last two to leave the ship.

Heavy explosions heard late today indicated that some of the patrol boats which put out as soon as the sinking was reported had come upon a German submarine. The explosions continued until eight o'clock tonight and mariners here claim that they sounded like depth bombs.

Several barrels of crude oil, some of them charred were washed ashore here this afternoon and it is thought that possible a tanker may have been a victim of the submarine before the cruiser.

Washington, July 20, 2 A. M.—The Navy Department early this morning received information that two steamships which are proceeding to an unnamed Atlantic port, have on board 1050 officers and men of the cruiser San Diego, in addition to the one officer and thirty men landed in a life boat previously reported.

The men are said to be in good condition and no one is reported missing or injured.

Washington, July 19.—The United States Armored Cruiser, San Diego, was sunk ten miles south east of Fire Island Light, Long Island at 11.30 this forenoon.

The Navy Department said that one officer and two boat loads of the crew were landed at Life Station No. 52, Long Island and others were picked up by boats and that four steamers were standing by.

So far as it can be ascertained the cause of the sinking is not yet determined. The Cruiser which was formerly the old California was of 12,000 displacement and carried a crew of officers and men of 1050 and was in command of Rear Admiral H. H. Christy.

The vessel herself was not regarded as a serious military loss unless she has been sunk by a German submarine, if the ship went down from a collision or striking a defense floating mine, with the small loss of life that has occurred if any, there is no great military loss. Until the statement

## HOW TO SAVE FISH

This is a particularly good time of the year to try whittings; if you want to keep your food bill down. Whittings are wholesaler at the Boston Fish Pier at a figure which should enable the retailer to sell them at ten cents a pound and make a profit. Other fish are high on the whole, and the dealer for low-priced fish must fall back on this variety. There is plenty of whittings on the market and every retailer can procure a supply.

Whittings are also known as "silver hake" and has long been a favorite dish with those acquainted with its pure, white, tender flesh. It is extremely perishable, and for this reason, if the housewife does not live near the coast, she should buy frozen whittings, as the frozen fish will be in a better condition than the fresh article.

Two fish should be thawed slowly in cold water. It may be cooked in the same manner as the most expensive haddock or cod, for which it will be found a fine, low-priced substitute.

## SUSPICIOUS CRAFT HELD FOR INQUIRY

Eastport, Me., July 20.—Local officials have been notified to hold the yawl-rigged yacht C. P. Wahl until the arrival of Federal officials here Saturday to make further investigation. The Wahl was towed in here by a coxswain of the patrol Sunday from a small cove two miles down the coast after being reported as a suspicious craft.

She is a 40-foot auxiliary yacht, hailing from Philadelphia, fitted out as a fisherman. On board are Capt. H. C. Pigott and his wife, who say they live in Dorchester, N. J., and have been spending the summer on a pleasure and fishing cruise. They have a local pilot, John Alley of Mt. Desert on board.

The commander of the patrol cutter reported that she was an innocent craft, after investigating. Capt. Pigott says he is planning to fish in the bay for a time.

## FOUR GIRLS SENTENCED FOR FLIRTING

AIR RAID? NO! MERE PATRIOTIC OUTBURST

Never in the history of the local exchange has anything occurred equal to the service demand of last evening. "You might as well have attempted to halt the Mississippi River with only a tin pill as to have been able to handle the tremendous business. Every position on our switch board was filled. The war victory celebration with the blowing of whistles and the ringing of bells caused a veritable panic. Many women thought that an air raid was in progress." Calls came from every part of Rockingham County to ascertain whether or not an air raid was in progress, whether the Kaiser had been captured or whether the Crown Prince had been killed and his entire army had been taken. As soon as manager Drew discovered early in the afternoon the telephone blockade he called all hands, both night and day force to duty. The pressure of business between here and Boston has increased to such an extent that it takes practically an hour to get a toll call through. It was some night, some crowd, all thoroughly American, full of patriotism and prepared to celebrate the first great American victory "Over There."

ROCHESTER STRIKE IS SPREADING

Haverhill, July 20.—Several thousands and members of the Allied Shoeworkers union Friday joined a general strike of shoeworkers which has been in progress here for more than a week. Union leaders estimated that more than 3,000 operatives quit today and that their idleness would result in more than \$500 of the 15,000 shoeworkers in the city being thrown out of employment. Manufacturers placed the number of new strikers at not more than 2,000.

The shoeworkers are seeking a 20 percent wage increase. Today's work-out was the result of action taken at a mass meeting Thursday night, at which it was announced that the manufacturers' association had determined not to recognize the union.

LIGHTLESS NIGHTS WILL BE RESUMED

Washington, July 20.—Resumption of "lightless nights" inaugurated last winter to save fuel, will become effective next Wednesday. It was announced by the fuel administration. All outdoor illumination with the exception of necessary street lighting will be discontinued after that date. On Monday, Tuesday, Wednesday and Thursday of each week in New England states, New York, Pennsylvania, New Jersey, Delaware, Maryland and the District of Columbia and on Monday and Tuesday of each week in the remainder of the United States.

Other fish are high on the whole, and the dealer for low-priced fish must fall back on this variety. There is plenty of whittings on the market and every retailer can procure a supply.

Whittings are also known as "silver hake" and has long been a favorite dish with those acquainted with its pure, white, tender flesh. It is extremely perishable, and for this reason, if the housewife does not live near the coast, she should buy frozen whittings, as the frozen fish will be in a better condition than the fresh article.

Two fish should be thawed slowly in cold water. It may be cooked in the same manner as the most expensive haddock or cod, for which it will be found a fine, low-priced substitute.

SUSPICIOUS CRAFT HELD FOR INQUIRY

Eastport, Me., July 20.—Local officials have been notified to hold the yawl-rigged yacht C. P. Wahl until the arrival of Federal officials here Saturday to make further investigation. The Wahl was towed in here by a coxswain of the patrol Sunday from a small cove two miles down the coast after being reported as a suspicious craft.

She is a 40-foot auxiliary yacht, hailing from Philadelphia, fitted out as a fisherman. On board are Capt. H. C. Pigott and his wife, who say they live in Dorchester, N. J., and have been spending the summer on a pleasure and fishing cruise. They have a local pilot, John Alley of Mt. Desert on board.

The commander of the patrol cutter reported that she was an innocent craft, after investigating. Capt. Pigott says he is planning to fish in the bay for a time.

FOUR GIRLS SENTENCED FOR FLIRTING

Providence, July 20.—Declaring that this city should be made safer for the morals of soldiers and sailors, Judge Gorham in the District Court Friday sentenced three girls to six months each and another to nine months in the State Workhouse. The girls admitted that they had flirted with men.

Edith Polson and Dorothy Marshall of New Bedford and Rose Clifton of Bridgeport were given the longer terms and Clara Darling of Boston got six months.

ROCHESTER

Rochester, July 20.—Deputy Grand Patriarch Bernard E. Brock installed the following elective officers of Norway Palms encampment, I. O. O. F. Chief patriarch, Winslow W. Otis; high priest, John McLeod; junior warden, Frank L. Abbott. The remainder of the officers will be installed at the next meeting.

Henry D. Mason of the United States navy, formerly of this city has arrived safely overseas, having had six years in the navy altogether. His younger brother, George Mason who enlisted in the United States army on May 19 is on duty at a New England arsenal.

The boys are the sons of Rev. George L. Mason of Orange, Mass., a former pastor of the Rochester Unitarian church.

Mr. and Mrs. William R. Kimball of Wakefield street are spending the warm weather at their summer residence at Wells Beach.

Horace Smith, conductor of one of the P. and R. freight, has returned to his duties after a week's illness at his home on Caxeter square.

Warren Parsons, clerk at Thomas W. Osgood's news store, is spending a few days in Boston.

Thomas A. Burd and Edward S. Polman are taking a trip in Maine.

Charles F. Goodwin, employed in the Thayer shoe factory, East Rochester, has been called to the colors. His fellow employees presented him with a handsome wrist watch.

Auctioneer Charles H. Twombly has received a postal announcing the arrival of his son, Charles W. Twombly, in France. The latter has been at Camp Devens for months in the electrical department.

The officers of Rising Sun lodge, Knights of Pythias, were inducted into office Thursday evening by Deputy Master L. Webster.

St. Mary's parochial school on Church street, which has been closed for a number of years, will be reopened in September. Extensive repairs have recently been made therein.

Mr. and Mrs. William E. Jacobs of Knight street, are to occupy the Machor house on Wakefield street after extensive repairs have been completed.

The Congregational Campfire Girls will hold no more meetings until September.

Fred Howard has returned from Providence, R. I., and moved his family to the Roberts house, 116 Wakefield street.

Mrs. Mary Duval is building an addition to her residence on Bridge street.

City Marshal George H. Mangon has received a letter from his son, Kenneth Mangon, who is in the United States army somewhere in France.

Young Mangon is in good health and enjoys military life. He enlisted at Portland, Me.

Charles Dixon of the United States navy is visiting his grandparents, Mr. and Mrs. Alonzo H. Chase of 25 Union street.

Miss Lillian Cornell of Walnut street is spending her vacation at Medford.

Rev. Cyrus L. Corlies, pastor of the First Methodist church returned from his three weeks' vacation today and Sunday will occupy his pulpit, the church having been closed during his absence.

AIR RAID? NO! MERE PATRIOTIC OUTBURST

Never in the history of the local exchange has anything occurred equal to the service demand of last evening. "You might as well have attempted to halt the Mississippi River with only a tin pill as to have been able to handle the tremendous business. Every position on our switch board was filled. The war victory celebration with the blowing of whistles and the ringing of bells caused a veritable panic. Many women thought that an air raid was in progress." Calls came from every part of Rockingham County to ascertain whether or not an air raid was in progress, whether the Kaiser had been captured or whether the Crown Prince had been killed and his entire army had been taken. As soon as manager Drew discovered early in the afternoon the telephone blockade he called all hands, both night and day force to duty. The pressure of business between here and Boston has increased to such an extent that it takes practically an hour to get a toll call through. It was some night, some crowd, all thoroughly American, full of patriotism and prepared to celebrate the first great American victory "Over There."

KEENE BOY IS TWICE WRECKED

Keene, July 20.—Mr. and Mrs. William J. Evans of Manchester street received word that their son, Joseph Leo Evans, was one of the sailors on the U. S. S. California, which was sunk off the coast of France on June 23, and that there was no loss of life. Their message came from the officials at Washington. Thus far they have not received any direct word from their son.

This is the second thrilling experience which young Evans has had, as he was a member of the crew of the U. S. S. Memphis, destroyed by a typhoon at San Domingo City in July, 1916.

EXETER

Exeter, July 20.—Class 1 of registered men from Division 2 of Rockingham county is nearly exhausted, and after the 30 leave for Camp Devens on July 25 there will be a manager number left. On July 30 seven men will be sent to the recruiting station at Syracuse, N. Y., for untrained service, and until July 23 volunteers will be received for a quota to be sent to Dartmouth college on Aug. 15 for training along mechanical lines. The number has not yet been specified.

Myron R. Williams, a graduate from Harvard with the class of 1912, will be a new instructor at Phillips Exeter academy in the English department next year. Since graduation from Harvard he has been a teacher in the Groton, Mass., school and Hartford, Conn., high school. He is now quartered at the Williams house, where he will be the resident instructor.

Norwood Niles, son of Dr. and Mrs. W. H. Niles, left Friday afternoon for Aberdeen, Md., where he will join the aviation corps, which has recently been transferred from Ellington Field in Texas.

# ALLIES BEGIN ADVANCE IN RUSSIA

Amsterdam, July 19.—Rear Admiral Kemp of the British Navy has proclaimed the occupation of the northern section of the Murman railroad by British, American, French and Serbian forces, says Max Hehrmann, the Stockholm correspondent of the Berlin Vossische Zeitung under the date of July 16. The admiral, he adds, also announced that the forces would advance southward in accord.

Hehrmann says that there are no Soviet authorities in the whole Murman territory. On the entire 400-mile stretch of railroad only a half dozen main points are there any sort of rudimentary political organizations. The largest of these is at Alexandrovsk, comprising 400 persons; while the one at Kem has 300 members. These communities, he declares, were until some months ago Bolsheviks, but since they have split into numerous parties whose services go to the highest bidder.

He further alleges regarding "a request for help from the population" that two obscure Russians, one an ex-convict and the other a former general, have been travelling around in the interests of the Allies collecting adhesion to the requests by threats or bribery. The newspaper prints an Archangel message to the Zvezda of Moscow which mentions the arrival there of Italian and Serbian officers and men, who, it declares, were disarmed and expelled by the local Soviet.

A zoologist named Schmidt, who has just returned to Petrograd from a trip to North Russia, reports, according to the Norddeutsche Allgemeine Zeitung that the British are busy making Kem a strongly fortified place and that the garrison is well supplied with food from England.

NEXT BLOW BETWEEN  
MONTDIDIER AND SEA

London Expects This As Result Of Rhodus Failure—Half Of German Reserves Used Up

London, July 19.—The effect of the Rhodus failure will probably be to necessitate a blow by the Germans somewhere on the front between Montdidier and the sea. Although the Allied line has many vulnerable points in this long front and restricted room for maneuvering is always a danger, yet it remains a fact that the Allies now have used up half the fresh divisions in the German reserve and the blow to come must be proportionately less severe.

MEDAL FOR PATAPSCO MAN.

A silver life saving medal has, through the Navy Department, been delivered to Stowe A. Studley, fireman, first class, on board the U. S. S. Northern Pacific, in recognition of his gallant conduct in assisting in rescuing a man from drowning May 5, 1917. Studley jumped overboard from the U. S. S. Patapsco, built at Portsmouth navy yard, to rescue a shipmate who had been accidentally knocked overboard. Studley re-embarked at Seattle, Washington, September 5, 1917; next of kin, Etta Schwerin, Ritzville, Washington.

# N. Y. CELEBRATES VICTORY BY BELL RINGING

New York, July 19.—The bell on the city hall tower was ordered rung by Mayor Hylan for 15 minutes on Thursday afternoon in celebration of the victorious American advance on the French front.

Down on the water front steamship captains watched the infection and sent their whistles blowing.

First slowly then at 4 o'clock in quarter-minute strokes, the bell rang out. Other bells in downtown districts caught the spirit.

On the wings of light the glad tidings spread uptown. In the vicinity of 42d street and Broadway car gangs began to thump and from excited knots of people about the bulletin boards roar after roar of deep-throated cheers sounded.

New York was experiencing a sensation unknown since the days of the Spanish War! New York was celebrating a victory.

The provost marshal of Maine, Maine is called upon to furnish 253 men and they will report at Haddon August 15.

Overruling A Court Custom

(From the Springfield Republican)

There will be wide interest in a recent decision of the Illinois Supreme Court dealing with the discretionary power so generally exercised by prosecuting officers. Some months ago nearly 500 Chicago saloon keepers, charged with violation of the Sunday closing law, were called before Judge Newcomer. The State's attorney moved to nolle prosequi the cases and the judge refused to allow this, unless the evidence were first heard, holding that the prosecuting officer had no authority to dispose of cases without the court's consent. The State's attorney took the matter to the Supreme Court in the form of a writ to compel Judge Newcomer to enter the order to nolle. The judge prepared an answer to this appeal, and the Supreme

## A New Idea in Marketing.

From Hampden County, Mass., where much has been done in the last few years to improve the condition of the farmers and the conditions of country life generally, comes the advocacy of roadside marketing as a means of disposing of farm and garden products. The idea is that farmers living on roads much traveled by automobilists should erect stands by the roadside in front of their houses on which should be displayed samples of what they have to sell. It is claimed that in this way they could dispose of quantities of their produce to automobilists who would be glad to take home vegetables and fruits direct from the farms, and for which they would be willing to pay good prices.

This is a new idea and just how it would work could only be determined by trying the experiment, though it is claimed that it has been tried in some parts of the country with success. There would need to be some one in attendance at the stand and the selling of products in this way would not be entirely without effort. But that is not a matter of consequence, as nothing in this world that is worth having can be had without effort.

The plan might be said to be first cousin of the public market scheme which was introduced a few years ago. This has worked well in some places and failed in others. All are familiar with the general plan of the public market. It is a place where farmers and gardeners can offer their produce to consumers at first hand. Buyers have to go after their supplies and take them home, but these are sure to be fresh and at least a part of the profits of the middleman are saved. To people who insist upon delivery service and the extension of credit neither the public market nor the roadside market will appeal, but those who are willing to meet the producers half way and pay for what they get when they get it will take kindly to such markets.

And that is about all there is to it. There is a considerable element of the community that likes to be waited upon, and when these people are willing to pay for the service there is no reason why they should not be. There are also those who are ready to save a dollar when this can be conveniently done, and these are the people who make the public markets a success where they are a success, and who would also make the roadside markets successful if success for them is possible. As between the two there is reason to believe the public market stands the best chance for success, as the bother of establishing and attending a stand in front of the house would be quite an item, and the results might not be satisfactory if all of the neighbors were doing the same thing.

The encouraging fact is that ways are being devised to bring producers and consumers into direct contact with one another, for to the extent that this is done do benefits come to both.

President Wilson has consented to the enlistment of his personal stenographer, the young man who has been writing his letters and reporting his speeches for some years. But when it comes to a pinch the president is capable of doing something in the line of stenography himself, according to common report.

A Massachusetts man has invented a blueberry picker, with which it is claimed that he has picked ten quarts in twelve minutes. Making every allowance for the merits of the invention, it will have to be admitted that there was pretty good picking where the trial was made.

If Senator Hollis should decide to get into the race again there would in the course of the next few months be further evidence that politics is not adjourned. On the whole, it begins to look as if there were to be some lively doings in New Hampshire next fall.

The question is whether bicycle riding on the sidewalks shall be stopped before or after some one is killed or dangerously hurt. It would be better to stop it before, and if this is to be done now is the time to act.

Everybody is pleased with the news from Washington that the government is to stand the whole expense of the local housing problem. To use a somewhat timeworn expression, "This is as it should be."

## FLOYD RESIGNS AS N. H. FUEL ADMINISTRATOR

Ex-Governor Says He Can't Give Sufficient Time to the Work.

Manchester, July 20.—At a meeting of district fuel administrators here Friday, Ex-Gov. Charles M. Floyd resigned as State Fuel Administrator. Mr. Floyd quits because he believes that the position needs the services of someone who can devote more of his time to it than he can.

Mr. Floyd said that Federal Fuel Administrator Garfield had accepted his resignation, but pending the appointment of his successor he would serve as head of the State administration.

The State's allotment is 420,000 net tons, which is 50,000 net tons less than that estimated.

The name of Robert E. Lee figures among those listed for bravery at the front. This country has never had a war in which the name and blood of Lee have not had their part in brave and gallant action.

Not even great Hoover, the food-grab repressor, can banish the ladies contrived by those ladies who always were hoarders of prizes for their boards.

**No Fit Time For Politics**  
(From the New York Journal of Commerce and Commercial Bulletin)  
This is a time when there ought not to be any such partisanship in a state like this, and when the choice of the people for candidates of their party, as well as the officials should be free of control by "houses" or leaders.

And yet politicians of both parties are unusually active and dominating in their effort to control nominations. They even get up "conferences" which in character and purpose are much like the old conventions, but with a free hand in determining choice than when they had to secure the favor of delegates. The present governor is determined to run for a third term, whether his party wants him or not, and his conduct in office has been aiming at it for a year or more. It has brought into the conflict as a rival member of the same administration who will seek nomination at the primaries, but the governor is getting a conference of politicians really to determine the choice in advance.

**Scholarship For French Girls**  
(From the New York Evening Post)  
While many plans for closer educational relations between America and Allied countries after the war have been advocated one has been fully launched. The Associated of American College expects to have more than one hundred French girls here next winter. Nearly seventy colleges and universities have offered scholarships—most of them two each—covering living costs board and tuition. Some institutions will pay travel and incidental expenses; others generously being sometimes made possible from by contributions the student body and graduates. Eighteen States are now represented in the list. The Middle West, Illinois, Ohio, Wisconsin and Iowa—leading in these scholarships might be extended to other countries. Forst however, it would be better to make the scholarships for the French women permanent. The money should be easily found.

**Old Clothes During The War**  
(From the New York World)  
"No new dresses" is the slogan raised by members of the National Women's Liberty Loan Committee, in conference at Chicago to devise means for increasing women's activities in the next war-bond campaign. The economy is urged with the idea of making thrift fashionable for the period of the war. This, in fact, as respects all women fabrics, wearing old clothes, voluntary now, may soon be made compulsory in view of the military requirements for wool. Men in particular, apart from the cost of new clothes, are likely to find it expedient to make their old suits serve as long as possible.

The dyers and cleaners of the country, who are holding a convention at Atlantic City, show themselves alive to the situation. They have taken advantage of the opportunity to have their industry recognized by the Government as essential to the winning of the war and are about to begin a public campaign to educate the public to the possibilities of reclaiming old clothing through modern processes of cleaning and dyeing.

Meantime the Government itself is setting an excellent example. At the repair shops and cleaning plants established by the Quartermaster Corps at the army cantonments 907,438 pieces of wearing apparel were repaired and 405,102 pieces dry-cleaned in May, and the issue of new clothing materially reduced. Certainly if the Government can afford to save old clothes the public can. There is no approach in an old coat nowadays if it is clean coat; it may even serve in the circumstances as a uniform of patriotism.

After-war boycott of Germany and of German trade will not depend upon government action. If Washington, London, Paris, Rome, Tokio, throw down the bars utterly upon the signing of a treaty of peace, and formally forgive and forget the Teutons will still find themselves outcasts and the longer the war continues and the more universally the men of the world find themselves involved in it, the more uncompromising and the more continuing will be the post-bellum punishment inflicted upon the people of the Central empire.

The stand taken by the British seamen will serve as a basis for a social and commercial ostracism of the German people; the utter obnoxiousness of the whole world will be the superstructure. No one will care to touch or use Teutonic products. The general feeling will be the feeling of the Norwegian pilot who returned all the medals the Kaiser had given him, because they had become repulsive.

The world will want nothing to do with Germany or with things German. They will look upon them as leprosy. This will be the real punishment of the Teutons.

## CAPT. CHRISTY THANKS OUR CITIZENS

In a Letter to Local War Camp Committee He Refers to Excellent Treatment.

The fact that Portsmouth had been the home life of the 1200 men of the San Diego for three weeks made the news of the ship's loss a severe blow locally. The boys had made hosts of friends here. This is the second big cruiser with Portsmouth as the home port to be lost. The Memphis was wrecked at Haiti. Captain Christy's letter follows:

July 17, 1918.  
John H. Hebbard, Esq.,  
N. H. National Bank Building,  
Portsmouth, N. H.

Dear Mr. Hebbard:

On behalf of the officers and crew of the San Diego I beg to thank you for your very successful efforts to provide good, wholesome, elevating entertainment for us during our visit to this port.

Having we may again have the opportunity and good fortune of accepting more of the hospitality you have offered to provide us in various forms to suit all tastes, I remain,  
Very cordially yours,

IL H. CHRISTY,  
Captain, U. S. Navy, Commanding.

## NAVY YARD NOTES

**This Is Queer**

Benjamin L. Martin, Jr., of the United States marine corps, and his brother, Edward V. Martin, water tender, both of the U. S. S. Arkansas of Cumberland, Md., traveled on the ocean aboard the same ship for nine months, neither knowing that the other was aboard.

The boys met recently when they were leaving the ship at the same time to go on a furlough.

The brothers had not seen each other for nine years, prior to boarding the Arkansas—one as a marine and one as a sailor.

**Killed One Man**

Naval authorities are investigating the cause of the destruction of a laundry machine on the Norfolk yard, killing one and injuring several. The machine broke in a thousand pieces.

**To Speed Up Destroyers**

Efforts to speed up construction of destroyers are under way by the Navy Department. Secretary Daniels has called into conference representatives of all shipbuilders working on destroyers with a view to speeding up work so that destroyers may be put into action at the earliest possible moment.

Secretary Daniels said that destroyer building was proceeding well but not as rapidly as he believed possible and efforts to reach the maximum speed are being attempted.

**Trophy Guns on Way to U. S.**

A heavy German Maxim machine gun and two heavy minnowtraps captured by the Sixth Marines in Belleau Wood June 10 and 11, are being sent to America. The minnowtraps will be presented to the army and navy and come as trophies of an action wherein more than 100 Germans were captured while twenty-three machine guns were seized or destroyed. Five of the Maxims were turned against the Germans.

**The Same as Civilians**

Naval officers and their families when dealing at commissary stores will observe the same voluntary rationing of sugar as civilians. The Food Administration has announced that Rear Admiral Samuel McGowan, paymaster general of the navy, has issued an order making the three pounds per capita monthly ration of sugar to the public that of the navy shore stations.

**Three Mechanics, Five Helpers.**

A call was made today for three sheet metal workers and six roof-worker's helpers.

**Want a Shop League.**

Much interest has developed among the several shops at the Portsmouth navy yard for a shop baseball league confined to the local station.

The promoters are in hopes of organizing a six or eight team league. The shops contain many good players and it is thought that the league if organized could utilize the navy yard grounds for the games.

**Enlists in Reserves.**

Ray F. Shaw, son of Mr. and Mrs. W. B. Shaw, has enlisted in the naval reserves at the Portsmouth navy yard.

Two hundred Smiths, riding in vehicles typical of the five generations represented, recently celebrated the 100th birthday anniversary of William Smith in Abbeville, Ill., who himself led the procession in a pioneer wagon with solid wooden wheels. He sat amid relics of 100 years ago. Smith was born in England and came to America when 17 years old.

## SOLDIERS AND WOMEN GETTING COAL FROM U. S.

(By Associated Press)

Portland, Me., July 19.—Six soldiers and two women are under arrest here for taking part in a conspiracy to defraud the government out of thousands of dollars in coal. The women are Mrs. Catherine Winter, keeper of a lodging house and Mrs. Allison Gardner of South Portland charged with receiving some of the coal.

Their arrest was the result of the capture of Karl Senecheta, a private in the quartermaster corps, an Austrian by birth and with a record of eight years in the regular army. He was arrested in civilian clothes on his way to the railroad station. The arrest resulted in the unfolding of the plot to rob the government of coal and clothing. Five other soldiers are also under arrest.

## BASE BALL DECLARED NON-ESSENTIAL

(By Associated Press)

Washington, July 19.—Professional baseball was held as non-essential occupation under the work or fight order by Secretary Baker today. He said "I have decided that the work or fight rule can include base ball said Mr. Baker. The Secretary also expressed an opinion that the draft regulations should be changed so as to include all persons engaged solely in the work of entertainment, without the need of it being taken care of in the work or fight rule.

## OLD ORCHARD'S FINAL CARD

Old Orchard, Me., July 19.—Attorney General Sturgis today notified the Selection of Old Orchard Beach that

## DOVER

Dover, July 20.—The installation of officers of Woodham's lodge, I. O. O. F., was held Thursday evening at Odd Fellows' hall. The officers were installed by Herbert F. Cole, D. D. G. M., of Salmon Falls. The following officers were seated: George R. Lord, N. G.; Walter A. Neal, V. G.; Walter A. Goodwin, R. S.; Henry Whitelouse, P. S.; Herbert J. Steeves, treasurer; Charles R. Hall, L. S. V. G.; Edgar R. Hatchelder, L. S. V. G.; Harry B. Nichols, warden; George A. Murray, conductor; Fred C. Stewart, L. S. S.; Harry Spumey, L. S. S.; Anderson C. Hall, chaplain; Elmer C. Drake, L. G.; Herbert Brown, O. G.; William A. Piper, L. G.; Fred Boothby, R. S. V. G. Following the installation a social session was held, after which refreshments were served.

Notices to 79 registrants of the class of 1918 were sent out by the local board for Strafford county Friday, calling the men to appear for physical examination at the Strafford county court house, Dover, Monday morning at 9 o'clock. The remainder of the class will be examined Tuesday. Thus the entire list of new registrants will be examined in two days.

The marriage of Peter A. Johnson and Miss Helen G. Bickford, at Boston, Nov. 23, was announced Friday. Mr. and Mrs. Johnson kept the secret of their marriage until very recently, when they decided to move to Boston. Mrs. Johnson is the daughter of Mr. and Mrs. Alta E. Bickford, 65 fourth street, and is a graduate of the Dover schools. Mr. Johnson is a salesman for the Hatchelder and Snyder company of Boston. Until recently Mrs. Johnson was employed as a stenographer by the U. S. government.

## TO HAVE A PUBLIC PARK IN DOVER

### City Council Votes to Purchase Towle Field, Also to Have Swimming Pool.

At a special meeting of the Dover City Council Friday night a public park to be known as the Woodham Park, was provided through a vote to purchase for \$10,000 the Towle field, a 20-acre tract on the south side of that city, with five acres of Judge George S. Frost's land adjoining and extending to the Bellamy River.

The price of the latter was \$300. The purchase money is from the original bequest of Theodore W. Woodman to the city for a park.

The council also voted to accept the Jeremy B. Guppy bequest of \$5000 for a public swimming pool and to investigate the adequacy of the water supply in Guppy Park for its establishment there. It appropriated \$150 from the Guppy bequest toward providing another swimming pool on the Bellamy in Woodman Park.

A quitclaim deed from the Waldron heirs of the historic Waldron Burying Ground, where lie the bones of Major Richard Waldron of Colonial fame, was accepted and the ground placed under the care of the Pine Hill Cemetery trustees.

## SHATTUCK NINE DEFEATS THE ATLANTIC 4 TO 2

The Shattuck defeated the Atlantic baseball team in a postponed game in the Sunset league schedule on Friday evening. In one of the best games of the season it was full of brilliant plays and a pitchers battle. Johnson for the winning team and Pierrotti for the losing team both allowing but few hits.

One of the feature plays was the catch Silva made of Conlon's ball over short and the remarkable recovery and throw of Conlon of Mitchell's ground hit upon which he slipped as he took the ball, fell recovered the ball and threw to first almost in time to get the runner.

Johnson allowed but four hits three of these in the fourth when the Atlantic gathered in their two runs, he allowed but one pass and was always in command. Pierrotti allowed but three hits well scattered but errors and five passes that he gave defeated him.

The Shattuck Shipbuilders got their first run in the second. Conlon was robbed of a hit by Silva's brilliant catch. Slattery fled to Murray who muffed the ball and Slattery kept on to second, a passed ball gave him

third, and he scored, when Burgess was thrown out at first by Silva. They scored in the third on a two-base hit by Melkon which he worked into a run by daring base running going down on a long fly to centerfield. Swasey gathered in and scoring when Melkon was thrown out at first by Silva. They added another in the fourth after two men were gone, when Burgess drew a pass advanced on a wild pitch and scored on Johnson's single.

In the fifth they landed another tally, McKee getting on through Robinson's error, Christine was thrown out at first advancing him to second and he scored on Melkon's single.

The Atlantic did not get a look in until the fourth when Pigrim got on by Christine's hit, Silva, Swasey and Knecht came through with hits and Pigrim and Silva scored, with two men on Johnson tightened and Mitchell was thrown out by Conlon. Cavanaugh struck out and Robinson was retired by Conlon. They got men on in the sixth and seventh but could not get them across.

## THE ESPERANTO CONGRESS AT ELIOT.

The first day of the Esperanto Congress at Green Acre, South Eliot, has passed off with great calm. The closing of the Green Acre Inn made the problem of housing the delegates one of no small seriousness; but the kindly cooperation of the cottagers and residents of South Eliot and Eliot made a successful solution possible.

The first business session opened at about 3:30 p. m. In the absence of the president and vice president, Mr. Ernest E. Dow, secretary-treasurer, called the meeting to order, presenting Mr. George W. Lee of Boston, chairman of the committee on arrangements, who, after a brief introductory statement, resigned the chair to Mr. James P. Morton, Jr., of New York.

An address of welcome by Alfred E. Lunt, chairman of the Board of Trustees of the Green Acre Fellowship, was replied to by Dr. O. S. Lowell, headmaster of the Roxbury Latin School. After the appointment of a committee on resolutions, consisting of Dr. Lowell, Miss Weems of Baltimore and Miss Butler of New York, reports from districts and committees were read, followed by a number of communications. Invitations for the next Congress were received from New York, Chicago, San Francisco and St. Louis. A brief address on the Green Acre and those of Esperanto was made by Mr. Morton, after which the Congress was adjourned to the following morning.

In the evening a reception was held at the Green Acre Fellowship House, which was fully attended by the delegates and residents of Green Acre, as well as by a number of neighboring residents. Mrs. Sallina B. Fekner presided over a brief program, consisting of a song of welcome, written in Esperanto for the occasion by Mr. Morton, and set to music by Miss Klebs, sung by a group of young girls from the Green Acre Esperanto class; an address of welcome by Mrs. Graco Ober and a response by Dr. Lowell; a Love Song by Flegler, sung by Mrs. Edith Ingles, with piano accompaniment by Mrs. Elizabeth Hanson and violinello accompaniment by Mrs. Gail Lohney; a ballad dance by Miss Margaret Flexner, assisted by a group of her friends; and accompanied at the piano by Miss Alice Ashton; and the Esperanto, International hymn, "La Espero," sung by the delegates. The rest of the evening was spent in social intercourse, light refreshments being served.

**Pro-Germanism After The War**  
(From the Minneapolis Journal)  
Minnesota soldier with a German name writes home after six months on the battle front in France, "Dear Mother: I am sick and ashamed of my name. I am thinking seriously of having it changed. I don't want anyone to know I'm of the same blood as this gang we're fighting."  
Fear has been expressed in many loyal American hearts after the war the pro-Germanism in this country, now more or less unmasked by fear, may break forth violently, as it did before the war. And there is something to fear in this regard, for the propaganda is insidious like other German poison gases.  
But after the war one great force will be solidly on the American side, and that will be the American soldiers back from fighting back from a distant view of the sort of hostility Germany represents. Pro-German Catholics and others, whose brains are now fogged with old German fairy tales, may learn the truth through their boys' letters from France. If not, they will learn it after the boys come back. Five million fighting Americans spread over America after the war will make pro-Germanism the most despised doctrine ever preached on American soil.  
If pro-Germans want to know where they will stand in public esteem after the war, let them ascertain where Copperheads stood after the fighting men came home in 1865. Such of these as did not voluntarily banish themselves, spent the rest of their lives trying to forget what they did between 1861 and 1865. But their neighbors never forgot.  
**POST CARDS ON THE DECLINE.**  
The picture post card has declined in popularity since the postage rate increased and the number that is sent through the mails now has greatly decreased. The post card saved time and correspondence and often served the purpose as well as a short letter. Its educational value was often worth while, for many who had little time or means to travel.

**Noted Baritone Soloist**  
**E. W. NAFTZGER**  
Made two tours around the world; lately singing in army camps. Will teach war songs and sing solos at the  
Methodist Church, Miller Avenue, Sunday Night, 7:30.

### DEPARTURE MUST BE KNOWN TO U-BOATS

The sinking of the armored cruiser San Diego, which left the local navy yard on Thursday, bears out the suspicion that the actual departure of ships from American ports must be known to submarine commanders. The loss of this ship caused deep sorrow about Portsmouth and the local celebration Friday evening in the face of this failed to be understood by our citizens.

#### FUNERAL NOTICE

The funeral of John W. Robinson will be held from his late home, No. 70 Hancock street, Monday afternoon at 2 o'clock. Friends invited.—Adv.

#### RETURNS TO WORK MONDAY

Conductor Frank Burke of the B. & M. service, returns to work on Monday after an absence of five months by illness and will resume his run between Walpole and Boston. Conductor Clark who has been covering

the run will take his former train, Boston to Andoverbury.

### RUMORS ARE UNFOUNDED

There is absolutely no truth in the report that a bomb had been placed on board the San Diego while that vessel was here. The story that a spy had been arrested at the Navy Yard on Thursday is without foundation. There has been no discharge, big or little, at either of the ship yards.

#### SPECIAL NOTICE

Local No. 351, International Brotherhood of Stationary Firemen and Oilers, will close its charter at the next regular meeting held Sunday, July 21, 1918, at Socialist Hall, 39 Congress street at 8:30 o'clock.

All Firemen, Oilers, Waterfenders and Helpers wishing to become members, will please present their names on or before that time.

E. H. DAVIS, Rec. Sec.  
637 Sagamore Ave.  
Tel. 793-N. Adv.

It was some celebration at a short notice.

## LARGER DRY DOCKS ARE NEEDED HERE

This Navy Yard Should Receive Some Improvements Other Yards Are Getting.

The value of our Navy Yard should be fully recognized. No naval station can ever obtain permanent bigness unless it is fully provided with large dry docks, large enough for the ships of today and the ships of the future. The ideal place for these docks are right here at the Portsmouth navy yard. There are no ships too large afloat to enter this harbor at any time. We need the co-operation of the officers and men at the navy yard to attain it. We have waited altogether too long for these improvements. Norfolk, Charleston, New York and Boston are enjoying great prosperity under the new construction. Let's keep this matter thoroughly alive and push it to a successful conclusion.

## COAL ADVANCES IN PRICE IN THIS CITY

In keeping with the advance in coal in other cities, the local fuel committee today announced that there would be an advance in the price of the fuel in this city.

The local fuel committee issued the following announcement to the public today:

"Owing to an increase of 50 cents per ton freight rate and owing to increase of shipments of independent coal on which the Government allows ninety-five cents increase, it has been determined that the following prices shall go into effect on Monday, July 22nd.

"These prices have been submitted to and approved by the Government. Chestnut, Stove, Egg and Broken coal—\$11.25.

Pen coal—\$10.25.

Soft coal—\$9.50.

"At this time we again wish to advise the public that the allotment of coal for Portsmouth has been cut 20 per cent. Consumers are warned to save their coal for the winter months.

Very truly yours,  
H. C. TAYLOR

## THE HERALD HEARS

That three brothers all over 70 years of age are employed at the Shattuck shipyard.

That they are reckoned among the best men at the plant for their knowledge of wooden ship construction.

That Miss Gidde Schneider of Los Angeles, Cal., a recent bride in that city, hit upon a novel way to get some money for the Red Cross.

That she rented a big hall, invited 1000 people to her wedding and charged 50 cents for each guest.

That neither attendance nor number of presents received was cut down by the admission charge.

That the many holes in the asphalt paving will be filled in next week on several of the streets by the Warren Brothers doing contract work here.

That Martin P. McGhee of Reading, Cal., who just died at the age of 82 certainly had some hair truck and more than a little bunch of whiskers on his chin.

That he had never shaved his beard which had been growing since he was 17 years old.

That his whiskers measured six feet and nine inches in length.

That he kept the growth braided and plaited up under his chin, never unfolding it in public except on rare occasions.

That passengers on the evening trains to this city from Boston on Friday say things were lively along the line at nearly every station.

That two graduate nurses from the Long Island Hospital at Boston passed the physical examination at the British Canadian Recruiting Mission to complete their enlistment for war service.

That one was a Canadian and the other a Scotch lassie.

That a third female appearing for the examination was not a trained nurse.

That she knocked the hat off of Capt. McNair the president of the Medical Board when she told him that she was not a trained nurse but a corset maker.

That she told the Captain that she had taken up nursing for a side line to turn more about the anatomy to help her out in making corsets.

That she staggered the medical officer when she wanted him to assure her "nothing but clean cases, without much blood."

That he told her to stick to the minor articles of dress and continue to modify shapes.

That he was afraid that the story

maker would not stay long and she must confine her efforts to her adopted line.

That what Portsmouth did on Friday night was only a sample of what will take place when the boys come home and the Kaiser is down and out.

That the price of mackerel in Portsmouth still counts regardless of the fact that \$30,000 worth was landed at a Boston fish pier on Thursday.

That the price of the fish in retail was reported as 2 cents per pound.

That six sailors also brought in many swordfish, cod and haddock.

That the business men on High street will ask for the paving of that street very soon.

That some optical instrument is necessary to view the young flag on the pole at the playground.

That the Manchester Engineering Company of Manchester, N. H., is engaged on a sub-building contract in this city.

## AUTO CRASHES INTO POLE ON THE HIGHWAY

Machine Badly Wrecked and Boy Sustains Injuries.

A. N. Chamblin and his son Arnold of 53 Broadway, Haverhill, Mass., had a narrow escape from a more serious injury this morning on the highway between this city and Dover Point.

They were returning from a two weeks vacation in Canada and were on their way home in an automobile.

The father is said to have lost control of the machine which crashed into a telephone pole on the highway.

They were both thrown over the front part of the machine. The father escaped with minor injuries while the son's left side of the head was split requiring several stitches, left thumb badly lacerated and face badly lacerated. The police ambulance took the son to the Portsmouth Hospital where he was treated and later the father and son were able to leave for home by train.
